

# REPAIR SHOP WEBSITES TOPSHOP INTEGRATED REVIEWS

There's no better place to gain business for your shop than the internet. Unfortunately, if you aren't paying attention to your reputation online, the internet can also do a lot of damage.

Repair Shop Websites developed TopShop Integrated Reviews to help your repair shop increase online business while also protecting your reputation. With TopShop, your online visibility will increase as your customers post great reviews about your shop to the most commonly visited review sites. Best of all, IT only takes 10 seconds of your time and 30 seconds of your customer's time!

## HOW DOES IT WORK?

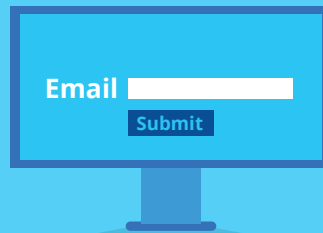

The customer receives an email asking them to review your shop. When they click on the link, they'll see a short form, where they can rate your shop and tell you about their experience.

As your positive reviews accumulate on popular review sites, people searching for mechanics online will see you as a reliable, trustworthy shop to get their car serviced!

3

When they press submit, you will receive the customer testimonial. If the rating was positive, it will be posted on your website. TopShop will also request that they post the positive review on your choice of review sites (including Google+, Facebook, many others) and offer them direct links to do so.
